

Building Regression and Classification Models

Janani Ravi

CO-FOUNDER, LOONYCORN

www.loonycorn.com

Overview

Regression and classification using the Keras API

Sequential models and the functional API

Optimizers and loss functions

Build and train models

Save, load, and checkpoint models

Monitor models using TensorBoard

Demo

**Build a regression model using the
Keras sequential API**

Demo

Build a classification model using the Keras functional API

Summary

Regression and classification using the Keras API

Sequential models and the functional API

Optimizers and loss functions

Build and train models

Save, load, and checkpoint models

Monitor models using TensorBoard
